

KOMSUN KOMOLJINDAKUL

Software Engineer - Backend (Ruby on Rails)

OVERVIEW

I have been working on web development for more than ten years through many projects for a variety of companies. I worked on both backend and full-stack development.

My primary development stack is Ruby on Rails, Vue.js, and PostgreSQL. If necessary, I am also open to leveraging new programming languages, e.g., Go, Elixir, and Rust.

SKILLS

Web Development with Ruby on Rails/
PostgreSQL/ MongoDB/ Redis
Vue.js/ JavaScript ES6
CSS frameworks: Bulma, Bootstrap

EDUCATION

Master degree in Information Technology
King Mongkut's University of Technology Thonburi
